

CAT'S UBER MASK SEWING INSTRUCTIONS

VIDEO: <https://youtube/fhX-1lCueM>

WEBSITE: <http://catgyrl.club>

A. FRONT HALF

- 1) Fold outer front fabric in half w/ right sides together. Trace pattern and cut to yield 2 mirroring outer front pieces.
- 2) (Optional) Decorate outer surfaces with permanent fabric markers.
- 3) Trace and cut 2 filter pieces.
- 4) With right sides together, sandwich the 2 outer fabric pieces, between 2 filter pieces.
- 5) If using pins, perforate fabric only within seam allowances.
- 6) Stitch face edge w/ 1/4" seam allowance.
- 7) (Optional) Add a line of permanent fabric adhesive inside the center face seam, and along the stitches on both sides of the face seam.
- 8) Trim excess seam allowance on face edge.
- 9) Fold ear corner over at dotted line on pattern and clip or pin.

B. BACK HALF

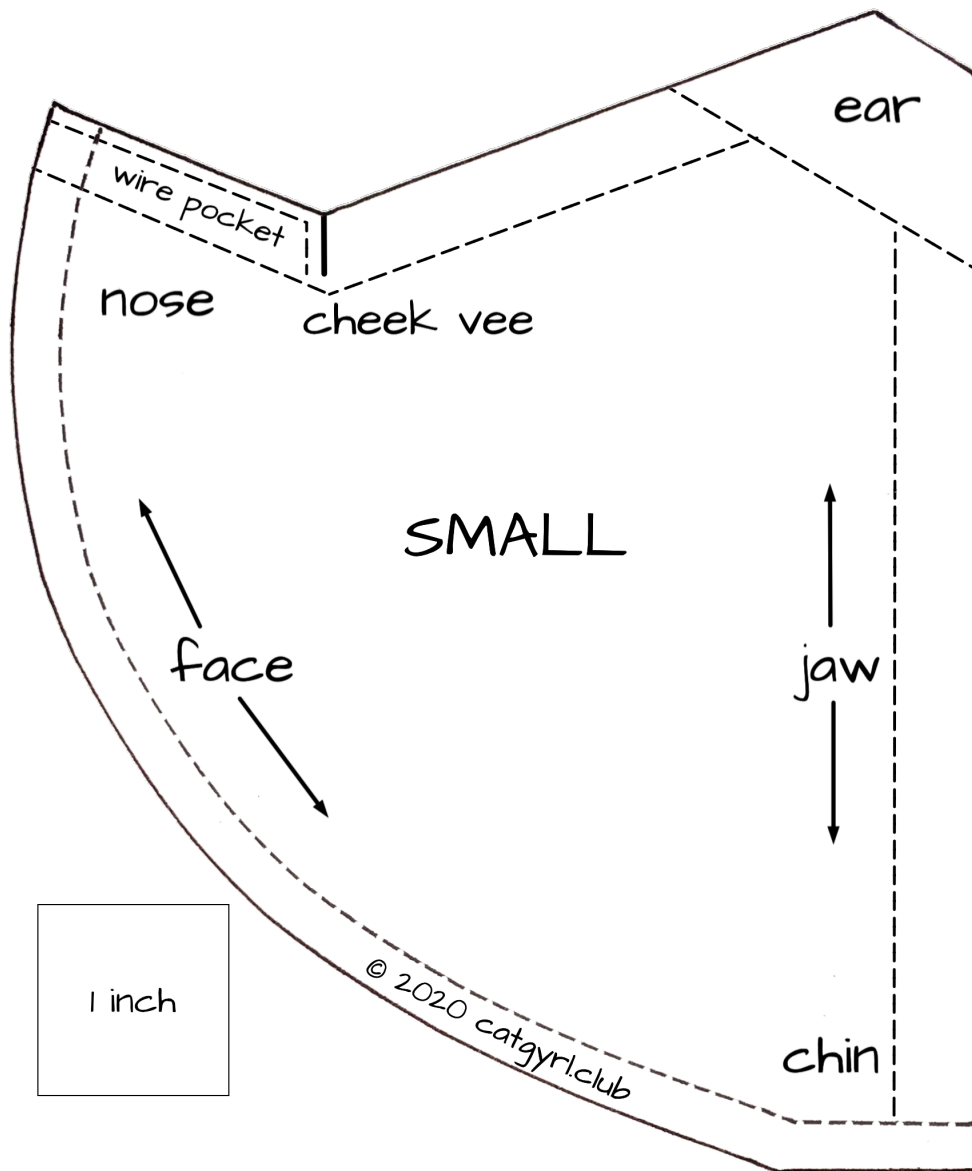

- 1) Fold outer back fabric in half w/ right sides together. Trace pattern and cut to yield 2 mirroring outer back pieces.
- 2) Trace and cut 2 filter pieces.
- 3) With right sides together, sandwich the 2 outer fabric pieces, between 2 filter pieces.
- 4) Stitch face edge w/ 1/4" seam allowance.
- 5) Trim excess seam allowance on face edge.
- 6) Fold ear corner over at dotted line on pattern and clip or pin.

C. ALL TOGETHER NOW !

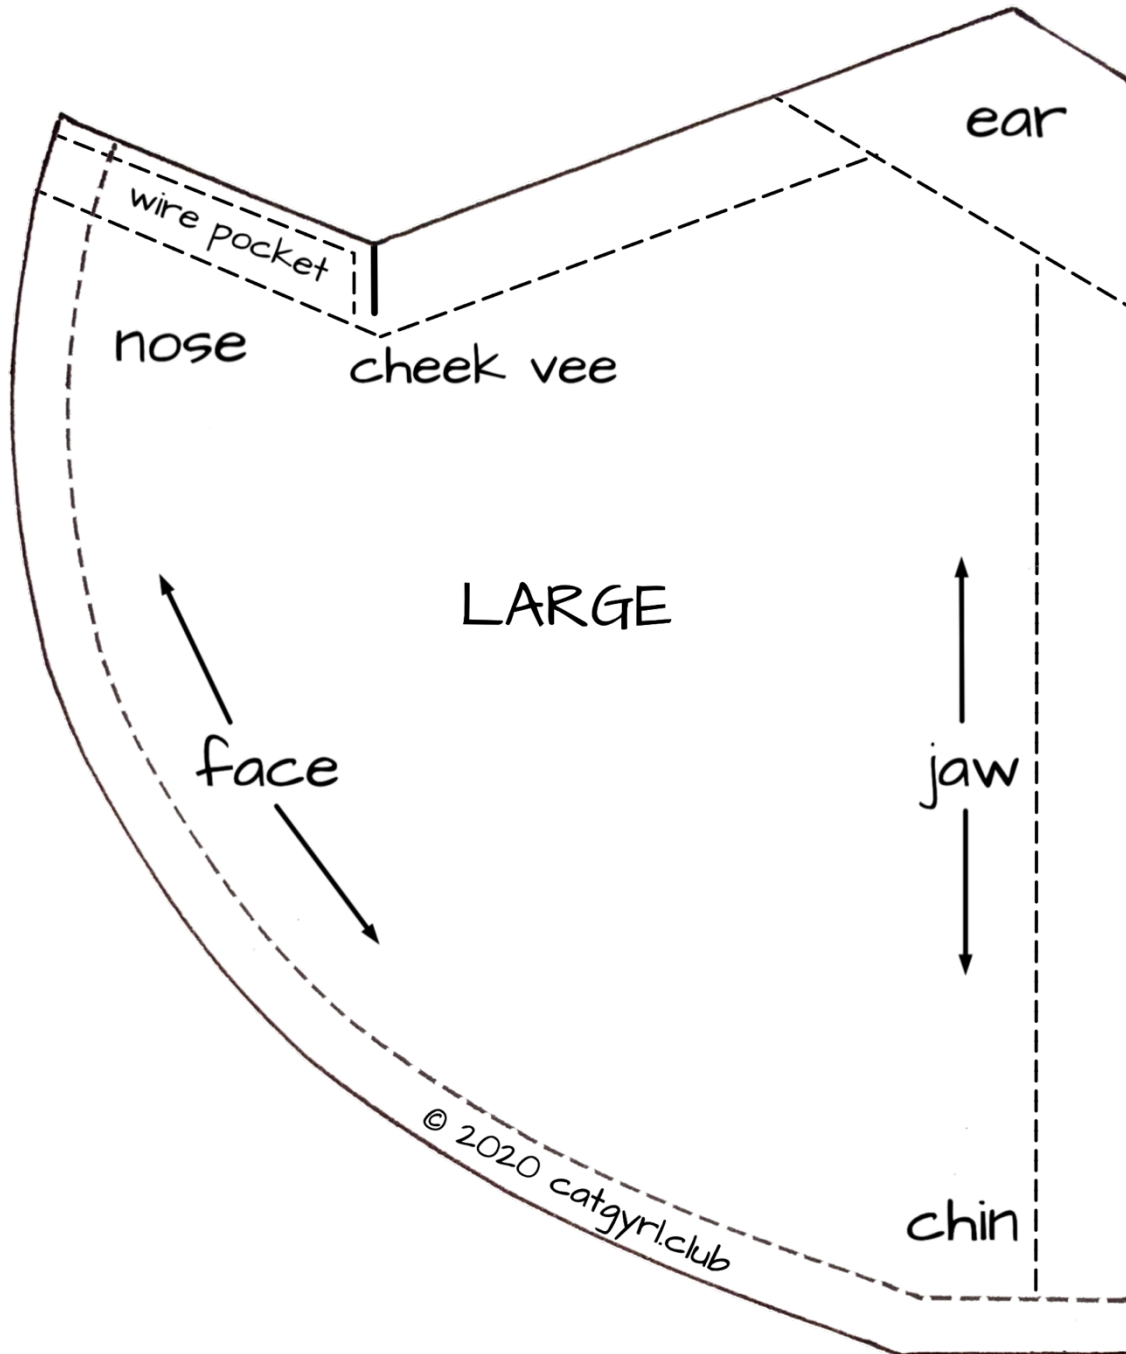

- 1) Reverse the fold of the back half, turning it right side out.
- 2) Position front and back halves with right sides together at top edge, nesting back half snugly into front half.
- 3) Line up top edges, nose to nose and ears to ears, and clip or pin.
- 4) Stitch top seam w/ 3/8" seam allowance.
- 5) Snip notches in the two cheek vees.
- 6) Trim excess seam allowance from ears to cheek vees.
- 7) Stitch pocket into nose seam allowance between cheek vees, insert nose wire and stitch closed.
- 8) Cut 3" of non-rusting wire. Turn ends under and flatten, to create an approximately 2-1/4" nose wire.
- 9) Trim excess from jawline of back piece, to line up with front jawline. Clip or pin front and back halves to each other, re-aligning ear folds if necessary.
- 10) Stitch jawline seam, w/ 3/8" seam allowance, stopping just past the center chin seam.
- 11) (Optional) Trim excess seam allowance from corners and seams.
- 12) Turn mask right side out at jawline opening.

- 13) Turn unstitched jawline edge under, repositioning second ear corner if necessary.
- 14) Topstitch jawline edge, ear to ear.
- 15) Attach ties (less than 1/4"-wide elastic + fabric is best) by slipping ends into ear pockets and stitching opening closed.
- 16) (Optional) Topstitch top seam ear to ear, close to edge, avoiding nose wire.
- 17) If a more snug fit is desired, an approximately 2" length of elastic can be added the bottom of the mask, on either the inner or outer chin surface.

SMALL UBER MASK

LARGE UBER MASK

CARE INSTRUCTIONS

- 1) After every use, hand- or machine-wash in cold or warm water, and tumble dry.
- 2) Avoid bending the nose wire back and forth beyond the width of your nose.
- 3) Store in a clean baggie or pouch, handling the clean mask with clean hands. Wash your hands often, for at least 20 seconds!
